## GENERAL STATEMENT.

THE regular and systematic instruction of the students upon the various topics of Legal Science, is under the control of Professor THEODORE W. DWIGHT, LL. D.

## COURSES OF LECTURES.

By Professor Dwight—On Constitutional and Parliamentary Law.

On the History of the Roman Law.

On the various topics of Municipal Law, as supplementary to the general course of instruction.

By Professor Lieber—twenty-five to thirty lectures—
. On the State—embracing a view of the

origin, development, objects and history of Political Society.

On the History of Political Literature.

On Political Ethics.

On Punishment—including its history, statistics, and a view of the Penal theories, systems and codes of modern times.

By Professor NAIRNE—On Moral Philosophy.

By Professor Ordronaux—On Medical Jurisprudence.

The following members of the New York Bar will deliver courses of lectures on Legal subjects during the term. Each course will contain from four to six lectures.

Hon. Marshall S. Bidwell—On ———

Hon. Alexander W. Bradford—On the obligations of the Common Law to the Civil Law.

Hon. CHARLES P. DALY—On the Laws of the Sea.

Hon. WILLIAM M. EVARTS-On -

Hon. WILLIAM CURTIS NOYES—On Criminal Jurisprudence in the Colonies before the Revolution.

#### INSTRUCTION.

THE design of the Law School is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice.

THE ANNUAL TERM of this Institution commences on the first Wednesday of October, and continues until May 15.

THE COURSE OF STUDY occupies two years, and is fo arranged that a complete view is given during each year of the subjects embraced within it. The plan of instruction includes the various branches of Common Law, Equity, Admiralty, Commercial, International and Constitutional Law, and especial attention will be given to all topics embraced within the recent rule of the Supreme Court, prescribing the studies requisite for admission to the Bar.

THE FIRST YEAR of the Course will be occupied with the study of Commentaries upon Municipal Law, of the Law of Contracts, and of Real Estate.

THE SECOND YEAR includes Equity Jurisprudence, Commercial and Admiralty Law, Evidence, Pleading and Practice.

Particular Attention will be given to the Law of Real Estate.

THE TEXT BOOKS used will be announced to the Classes as they are needed.

IT will be the aim of the School to make its Students fystematic and thorough in their attainments. It pro-

ceeds upon the principle that the science of Jurisprudence is to be inculcated by the approved modes of teaching the fundamental principles of other sciences, by the use of text-books, and by the drill of the recitation room, with supplementary lectures and expositions, oral and written.

PLEADINGS, etc.—The students are called upon, from time to time, to draw pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

EACH CLASS occupies ten hours with the Professor of Municipal Law in each week.

THE LECTURES by the other Professors and Members of the Bar are given at  $7\frac{1}{2}$  P. M., and not less than three in each week.

Moot Courts.—Two Moot Courts are held every week, at each of which a cause previously assigned is argued by four students, and an opinion delivered by Professor Dwight.

MEDICAL LECTURES.—By the courtefy of the Faculty of the Medical Department, the law students may attend any or all of the courses of Medical Lectures, free of charge.

#### LIBRARY.

THE Law Library contains a complete series of the Reports and Statutes of the United States and of the Reports of the State of New York, with the most valuable of those of the other States, a full

feries of the English Reports from the Year Books to the present time, with several editions of the English Statutes, and the principal Treatises on American and English Law. It embraces the body of the Civil Law and the treatises of the most eminent Commentators upon it, with many works of interest in Scotch, German, French, Italian, and other Foreign Law.

IT includes the original Law Library of WILLIAM SAMUEL JOHNSON, the first President of Columbia College after the Revolution, and one of the framers of the Constitution of the United States, for which the College is indebted to the liberality of his descendant, the Honorable William Samuel Johnson, of Connecticut. It has been still further enriched during the present year, by another donation of peculiar historic interest, from John Jay, Esquire, embracing the Law Library of his grandsather, John Jay, the sirst Chief Justice of the United States.

The Library is open for the use of the students during the term, from 9 o'clock A. M. to 10 o'clock P. M., where those who desire it pursue their studies, especially in the preparation of cases for the Moot Court. The central position of the School renders it easily accessible. It is directly opposite the Astor Library, to which the students have free access, and the Law Department of which contains several thousand volumes, including a very extensive series of English and American Reports, with a valuable and rare collection of works on Foreign Law, and full collections of French cases, ancient and modern.

## TERMS OF ADMISSION, FEES, ETC.

NY person of good moral character, whether a graduate of any College or not, may be admitted to either of the Classes. No examination and no particular course of previous study is required for admission.

THE TUITION FEES are \$75 per year, payable in advance, which will admit the students to all the lectures, and to the use of the Law Library. No student is matriculated until his sees are paid.

Board may be obtained in the city, at prices ranging from \$3.50 to \$5.00 a week. Rooms are obtained at prices varying from \$1.00 to \$2.00 a week. Where two students room together, board and rooms may be obtained on very moderate terms.

#### DEGREES.

N Examination for Degrees is held at the close of the Senior year, occupying three days, and extending over all the studies of the course.

THE DEGREE of LL. B. will be conferred upon such students as shall have pursued, to the satisfaction of the Trustees and the Professor of Municipal Law, the entire course of study, and shall have passed the requisite examination.

Admission to the Bar.—By the provisions of an "Act relative to the Law School of Columbia College," enacted by the Legislature of the State of New York,

April 7, 1860, graduates of the Law School are admitted to practice in all the Courts of the State, on receiving the College Diploma. This law has been recently decided by the Court of Appeals to be constitutional, and its provisions will hereafter be fully carried into effect.

# PRIZES.

SERIES of Prizes has been established, four in number, to be awarded to such members of the School as shall have attained the highest excellence in their respective Classes. These Prizes will be awarded yearly, commencing in the Spring of 1860. Competitors for these Prizes must have pursued the full course of study prescribed by the rules.

The fums awarded will be:-

For the First Prize, two hundred and fifty dollars.

- " Second Prize, two hundred dollars.
- "Third Prize, one hundred and fifty dollars.
- " Fourth Prize, one hundred dollars.

The successful candidates may elect to receive the amount in money, medals or books. The tests to which the candidates for these prizes will be expected to submit, are subjoined.

Any further particulars may be obtained from the President of the College, or the Law Committee, or from Prosessor Dwight, No. 37 Lasayette Place. Catalogues may also be obtained by application to Prosessor Dwight.

#### CALENDAR.

1860—Oct. 3. Law Term begins Wednesday.

Dec. 25. Winter Recess begins Tuesday.

1861—Jan. 3. Lectures recommence Thursday.

March 29. Good Friday.

May 13. Lectures close Monday.

- " 14. Examination for Prizes, Tuesday.
- "15, 16, 17. Examination for Degrees, Wednesday, Thursday and Friday.
- " 19. Baccalaureate Sermon, Sunday.
- " 22. Law Commencement, Wednesday.
- " 23. Summer Vacation begins Thursday.
- Oct. 2. Law Term begins Wednesday.

## RULES GOVERNING EXAMINA-TIONS AND PRIZES.

#### I. EXAMINATIONS.

THERE shall be an Oral Examination of Candidates for the Degree of Bachelor of Laws at the close of the second year.

The Examination is to be conducted by the Professors in the Law School, and is distinct from that hereinafter established for Prizes.

#### II. DEGREES.

The Degree of Bachelor of Laws shall be conferred upon such students as shall pass an Examination satisfactory to the Professor of Municipal Law.

#### III. PRIZES.

The rules respecting the adjudication of Prizes are as follows:

Ist.—There shall be an Examination of the candidates for Prizes at the close of each collegiate year. The first examination will occur in May, 1860. All members of the present Senior Class shall be entitled to compete for the Prizes. Hereaster candidates must be connected with the Law School for two collegiate years.

Note.—By the Act of April 7th, 1860, the Examination is required to be fatisfactory to the Professor of the Law School, and the Law Committee, or a quorum of them, being Counsellors at Law.

- 2d. The test of excellence shall be twofold;
- a. By an Examination in writing, in answer to printed questions.
- b. By Essays prepared upon such legal topics as may be suggested.

The Prizes shall be adjudicated upon the combined excellence of the Essays and of the Examinations. Diligence and regularity of attendance upon the prescribed exercises of the School, shall also form an element in reaching the conclusion.

- 3d. The following Directions must be observed by the candidates in preparing Essays:
- a. The Essays shall be written upon white letter paper of the best quality, with a margin of an inch wide. Only two pages of each sheet shall be written upon. The chirography must be plain and legible. The Essays shall not exceed ten sheets in length, or three-fourths of an hour in delivery, if spoken.
- b. The Positions taken in the Essays, shall, if debatable, be fortified by the citation of authorities. Where the point is reasonably well settled, a single decisive and leading authority shall suffice. In other cases, more are admissible.
- c. Conciseness and clearness of expression, accuracy of statement, and close reasoning, should be carefully studied by the essayists.
- d. Each Essay must be signed with a sictitious name, and be accompanied by a sealed envelope, upon the outside of which shall be written the sictitious name

attached to the essay, and within a slip of paper containing the real name of the author. The essays shall be delivered to the Professor of Municipal Law, on or before May 15th.

- e. The unfucceffful Essays shall be returned to the authors, with the envelopes unopened; the successful shall belong to the College, and shall be preserved in bound volumes for the use of the Law Library.
- f. Any Essays which have received honorable mention from the Committee of Award, and have failed to receive a Prize, may, with the consent of the authors, be bound with the Prize Essays.
- 4th. The Examination upon the printed questions shall be made as follows:
- a. Those who intend to compete for the Prizes shall enter their names in a book provided for that purpose, before May 1st. If among these persons there are any who have been wanting in a reasonable degree of punctuality, they shall be informed before Examination that they may fail of obtaining the Prize.
- b. The Professor of Municipal Law shall call a session of the candidates at such a time near the close of the collegiate year as may be convenient. He shall furnish, at the opening of the session, the printed papers to the students, who shall write their answers in his presence, upon paper similar to that provided for the essays, with similar margin. During this session there shall be a general silence observed, except in regard to such necessary questions as may be addressed to the Professor; and there shall be especially no communication of the candidates with each other respecting

answers. A failure to observe these rules will work a forfeiture of the right to receive a Prize.

- c. After the session is finished, each set of answers to the printed questions shall be signed by the candidate with the sictitious name attached to his Essay, and enclosed in an envelope as before. The answers shall belong to the College.
- 5th. The Essays and Answers shall thereupon be transmitted to a Committee on Prizes, consisting of three members of the legal profession, who are to be selected by the Law Committee of the College. The report of this Committee will be communicated to the Secretary of the College, in writing.
- 6th. The names of the successful candidates and the substance of the report shall be published in the principal daily papers of the city, at the expense of the College. Notice will also be given by letter to the successful candidates.
- 7th. The Prizes shall be awarded, at the option of the recipient, in money, medals or books. Where no notice is given to the contrary, the award will be in money, until otherwise ordered. The Professor of Municipal Law will countersign all drafts upon the Treasurer before they can become available.

#### THOMAS DENHAM, Janitor.

\*The Trustees of Columbia College, desiring to give to that Institution a more complete University development, have recently accepted the College of Physicians and Surgeons, as its Medical Department. This connection, while it leaves the College of Physicians and Surgeons free from control in the details of its organization, secures to it influences by which, it is hoped, its sphere of usefulness will be greatly enlarged. Important measures are in contemplation, by which the united efforts of the two Institutions may be made to advance the best interests of sound learning and general culture,

## INFORMATION.

#### MATERIA MEDICA.

charge of Prof. Smith, whose lectures upon this subject have been so highly valued by the student. He will have under his control the extensive cabinet collected and presented to the College by Prof. Beck; and also that of Prof. J. Smith Rogers, which was deposited in the College by that gentleman, before his regretted death. The College have also recently received a valuable collection of specimens from Messrs. Schieffelin, Haines & Co., of New York.

# PATHOLOGY AND PRACTICAL MEDICINE.

This department, intended to comprehend the whole fubject of disease, its nature, symptoms, results, and mode of treatment, will be committed to Pros. Clark. He will, as heretofore, teach the pathology of each disease, accompanying his descriptions by the display of morbid specimens, and by microscopical demonstrations. To this he will add a consideration of the treatment; so that the student will at the same time learn the natural history of disease and the most approved mode of conducting it to a favorable issue.

#### PHYSIOLOGY.

Prof. Dalton will teach Physiology as a science of observation and experiment. Every effort will be made to demonstrate each function as it is described; and the doctrines of life will be illustrated by reference to the most approved results of the study of animal chemistry and microscopic anatomy.

#### CHEMISTRY.

This department will be illustrated by abundant experiments, showing all the important reactions of chemical substances, and more particularly those which are of special interest in a medical point of view. The chemical properties of poisonous substances, and the means of detecting them, together with the most important portions of Organic Chemistry, will form a prominent feature in the course.

## SURGICAL AND MEDICAL CLINIQUES.

These Cliniques are among the most valuable and extensive means of instruction afforded by the College.

Patients are examined and prescribed for in the presence of the class, and subsequently (unless already in the care of some medical practitioner), assigned to one of the students, by whom they are attended at their own houses during the interval, and presented at the College on the next regular Clinique day, when the

result of the treatment is seen, and such further directions given as may be necessary.

In this way the students in attendance on the Cliniques are, in the progress of their studies, actually engaged in the practice of their suture profession; many of them having several cases, medical, surgical, and obstetrical, under their care at the same time.

#### SPRING, SUMMER AND FALL COURSES.

Encouraged by past success, the Faculty will continue their efforts to make the system of Medical Instruction in the College as full and complete as possible, by availing themselves of the unparalleled advantages which New York possesses for medical teaching, in the facilities which it affords the student of seeing diseases, for himself, in all their forms and varieties. Their great desire and design is, to show disease. In pursuance of this plan, the College Cliniques will be continued throughout the year; and during the Spring, Summer and Fall, courses of lectures, on practical subjects, will be delivered by Members of the Faculty, assisted by various medical gentlemen of the city, who have paid special attention to the subjects on which they lecture.

The Fall Course for 1861 will commence on Monday, the 23rd of September, and continue four weeks, until the opening of the Regular Course in October.

There will be four Cliniques in each week, viz.:

A Surgical Clinique, by Profs. PARKER and MARKOE, every Monday at 11 A. M.

A Medical Clinique, by Prof. CLARK, every Thurfday at 11 A. M.

A Surgical Clinique, by Dr. Detmold, every Wednefday at 2½ P. M.

A Clinique for Females, by Dr. Swift, every Friday at 2½ P. M.

In addition, Special Courses of Lectures will be delivered by Professors Watts, Dalton, St. John, and others.

The Spring, Summer, and Fall Courses are all free to the matriculated students of the College.

#### REGULAR COURSE.

The Regular Course of Lectures, for the Session of 1861-62, will commence on Monday, the 21st of October, 1861, and continue until the second Thursday of March following.

## PRIZES.

#### FACULTY PRIZES.

at the College Commencement in March, for the best two Graduating Theses presented during the year, viz.:—a First Prize of Fifty Dollars, and a Second Prize of Twenty-sive Dollars. The Graduating Theses competing for these prizes, should be handed in to the Secretary of the Faculty in the Fall, by the 1st of September; and in the Spring by the 1st of February. At the last commencement in March, 1860, these prizes were awarded as follows:

To Erskine Mason, A. B., of New York City, for a thesis on Imperforate Anus; and to

EDMUND C. VER MEULEN, of New Jersey, for a thesis on Opium.

#### HARSEN PRIZES.

Founded by Jacob Harsen, M. D., an Alumnus of the College.

Three Annual Prizes will be awarded for the best three written Reports of the Clinical Instruction in the New York Hospital, during any four months of the year immediately preceding the Annual Commencement in March, which shall be prepared and presented by Students of the College of Physicians and Surgeons, viz:

A First Prize, consisting of a Gold Medal, worth Fifty Dollars, and One Hundred Dollars in money.

A Second Prize, confifting of a Silver Medal, and Fifty Dollars in money; and

A Third Prize, confisting of a Bronze Medal, and Twenty-five Dollars in money.

All the medals to be struck from the same die.

The Reports competing for these Prizes should be handed in to Professor Clark, on or before the 20th day of February in each year.

The First Prize for 1860 was awarded to J. Law-RENCE HICKS, of Queens county, N. Y.

#### STEVENS PRIZE FOR 1861.

Offered by Alexander H. Stevens, M. D., LL. D., Professor Emeritus of Surgery, and Ex-President of the College.

This Prize, confisting of the sum of One Hundred Dollars, will be awarded for the best series of Preparations which shall adequately illustrate the Anatomy, Physiology and Pathology of the Larynx. The preparations competing for this prize should be sent in to Dr. Henry B. Sands, Curator of the College, on or before the 1st day of March, 1861.

The preparations receiving the above prize, as well as those of which Honorable Mention may be made, will be deposited in the Museum of the College of Physicians and Surgeons, inscribed with the names of the successful competitors.

This Prize is open for competition to all students and medical men.

#### GRADUATION.

There are two periods for conferring degrees: one at the Annual Commencement, in March; the other at the opening of the Regular Course in October. Candidates for the degree of Doctor of Medicine, must have attended two full courses of Lectures,—the latter in this College. They must also have studied medicine three years, under the direction of a regular physician, including the attendance upon lectures; and have attained the age of twenty-one years. Each candidate is required to write a thesis, on some subject connected with the science of medicine, and to deposit it with the Secretary of the Faculty. Full and formal certificates of the time of study, of moral character, and of age, must also be furnished.

The examination of candidates takes place semiannually; that for graduation in the Spring, early in March; that for graduation in the Fall, on the second Tuesday in September.

#### FEES.

Matriculation Fee, \$5.

Fees for the full Course of Lectures by all the Professors, \$105; but students are not required to take out all the tickets during one session.

Ticket of the Demonstrator of Anatomy, \$5.

Graduation Fee, \$25.

Students who have attended two full courses in this College, or who, having attended one full course in some other regularly established medical school, shall subsequently attend one full course in this College, are admitted to a third course of lectures on paying the matriculation see only.

GRADUATES of this school are admitted without see. GRADUATES of other schools, who have been in practice three years, and *Theological Students*, are admitted on general ticket, by paying the matriculation see.

GURDON BUCK, M. D., Registrar.

#### MISCELLANEOUS.

Gentlemen wishing information concerning the Medical College, Lectures, &c., are requested to direct their letters to the Secretary of the Faculty, Dr. Dalton, at the College of Physicians and Surgeons, corner of Twenty-third Street and Fourth Avenue, New York.

#### OF ADMISSION.

- 1. No Student will be admitted into the Freshman class, unless he be accurately acquainted with the grammar of both the Greek and Latin tongues, including fuch rules of profody as may be applicable to fuch of the Poets as he is to be examined upon; be master of Cæsar's Commentaries, except the last book; of the Orations of Cicero against Catiline and for the Poet Archias; of the first six books of Virgil's Æneid; of Sallust; of the Gospel according to St. Luke and St. John, and the Acts of the Apostles; of Jacob's Greek Reader; of the first three books of Xenophon's Anabasis, and the first three books of Homer's Iliad. must also be able to translate English into grammatical Latin; and must be well-versed in the first four rules of Arithmetic; the rule of three, direct and inverse; vulgar and decimal fractions, and the extraction of the square and cube roots; and Algebra as far as the end of fimple equations.
- 2. The Students admitted will be ranged alphabetically, until the next intermediate examination; after which they will be enrolled with reference to their refpective merits, in the manner hereafter designated.
- 3. Every Candidate admitted into the Freshman class, and every student, at the commencement of the

academical year, must write, in the Matriculation Book of the College, his own name and the name and place of abode of his father or guardian.

- 4. None but matriculated Students will be allowed to attend the classes upon any pretence whatsoever, without the special permission of the Board of Trustees.
- 5. No Student will be admitted into an upper class without being master of the previous part of the course.
- 6. No Student will be admitted from any other College without being duly qualified, nor without a certificate from such College of his good standing.
- 7. The annual tuition fee of each Student is fifty dollars, to be paid at the commencement of each academic year.

#### OF TERMS.

The First Term of the regular course of study will commence on the first Monday in October.

The Second Term will commence immediately after the Intermediate Examination in February.

#### OF EXAMINATIONS.

There will be two examinations of all the classes every year. The one to commence on the first Monday in February, and the other in the month of June. The latter will be the concluding examination of the academical year; the former will be called the *Intermediate Examination*.

The examination will be held in the presence of the President, the Professors, the Students, of a Committee of the Trustees, and of such other persons as may choose to attend.

The examinations are to be close and rigid; every student being left to stand or fall upon his own merits.

Immediately after each concluding examination, fuch candidates for admission into College as prefer to be examined at that time, may be examined.

#### ORDER OF MERIT.

- 1. Each Professor will mark ten for a maximum performance, and on a decreasing scale to zero, for a failure or a refusal to recite. Such comparative numerical value will be given by each Professor to written exercises, &c., relatively to that of recitations, as he may deem just and expedient.
- 2. At the end of the month the totals of each student will be made out by multiplying the average of his performances by the number of hours of his attendance in the respective departments.
- 3. Any act of misconduct during a recitation or lecture, may be marked by a Professor, as a demerit, by a number not to exceed ten. An unexcused absence will count as a demerit of ten. Tardiness will be marked, at the discretion of a Professor, by a demerit not to exceed five.
- 4. The President may mark a student for an improper act committed in the chapel or elsewhere, by a

demerit not exceeding ten. An unexcused absence from chapel will count as a demerit of ten; and tardiness, if unexcused, as a demerit of five.

- 5. The class-standing at the end of each month will be determined by adding the numbers for each student, obtained in the several departments, and deducting therefrom his demerits.
- 6. At the end of each semi-annual term, the classroll of merit will be determined by combining the monthly totals, in each department, with the result of the public examination; the maximum number for examination in each department being denoted by one half of the sum of the maximum monthly numbers in that department. The corresponding numbers denoting the standing of each student, in a centigrade scale, from 0 to 100, will also be computed and recorded.
- 7. Honors will be publicly awarded, after each semiannual examination, to the five students in each class who have obtained the highest numbers; and the honors at Commencement will be awarded in accordance with the numbers for the entire Collegiate Course.
- 8. The average annual mark of a student entering any class, after the beginning of the year, will be determined by adding twice bis semi-annual examination mark to eight times his average monthly mark.
- 9. The final graduating mark of every student will be determined by taking four times his annual average mark.
- 10. It will be permitted to any student, who may feel himself aggrieved by this system of marking, as

applied to those who enter the College after the beginning of the Freshman Class, to request in the presence of the President, that the student whom he conceives to have supplanted him shall relinquish so much of his final mark as to give him his true place in the class. In case of a resusal, it will be the right of the first student to demand an examination of both contestants on the whole College Course.

This examination will be conducted in the presence of the College Board, and will be continued until the Faculty shall be convinced which of the two is entitled to the higher place. On this examination every member of the Faculty present, will mark both of the contestants; and from their marks, they will assign to both such graduating marks as shall to them seem just and proper.

- 11. There will be established a minimum of one-fourth of the number attainable as the result of the recitations, exercises, and examination of each session; and every student who shall fall below that minimum will, ipso facto, be dropped from the roll of his class.
- 12. The same penalty will apply to every student who, at the concluding public examination, shall have sailed utterly in any one department of study, resulting from the habitual neglect of the duties of that department.
- 13. The monthly returns of the Professors, containing the average standing of the students, will be sent to the parent or guardian of every student who shall have been reported to the Board of the College for defi-

ciency in study or misconduct requiring discipline; but no student will incur the penalty prescribed in the last two preceding resolutions, unless at least two such monthly returns have been previously sent to his parent or guardian.

#### OF COMMENCEMENTS.

Extract from the College Statutes.

There shall be an annual commencement on the\* when academical degrees will be conferred.

Previously to conferring the degrees, public exercises shall be performed by the Candidates, in such manner as the Board of the College shall direct.

No student shall be admitted to the degree of Bachelor of Arts unless, besides due proficiency in his studies, he shall compose an exercise for the Commencement, which shall be submitted to the President; and the Student who shall resuse or neglect to adopt the corrections and amendments pointed out to him, or who shall deliver his oration or exercise for the day otherwise than is approved by the President, shall not receive his degree.

It shall be the duty of the Board to designate those who are to speak, and also to assign to each speaker his respective part on Commencement day; and any Student neglecting or refusing to perform the part assigned to him, shall not receive his degree.

<sup>\*</sup>The day is not fixed, but it precedes the 4th of July.

No Alumnus of this College shall obtain the degree of Master of Arts in less than three years after the date of his first diploma; nor then unless he shall have made such literary progress as, in the judgment of the Board, shall entitle him thereto. The President may assign to one or more of the Alumni of the College, who may apply for a degree of Master of Arts, such orations or exercises as he may deem expedient; which orations or exercises shall be delivered the last in the order of the day, the valedictory oration excepted; but no oration or exercise shall be delivered unless approved of by the President.

### OF VACATIONS.

There will be a vacation of all the classes from the day of Commencement until the Saturday next preceding the first Monday in October; on which latter day the regular course of study will commence. The candidates for admission will be previously examined.

There will be an intermission of the public lectures on Good Friday, the 4th day of July, the 25th day of November, on such days in each year as may be recommended by the civil authority to be observed as days of fast or thanksgiving, and from the 24th day of December until the 4th day of January, both exclusive.

#### OF THE LIBRARY.

Open from 1 to 3 P. M.

The Students of the Senior, Junior, and Sophomore classes, and such of the Freshman class as may be designated by the President, can have access to the College Library, and may be permitted to take books therefrom, on the days and at the hours appointed for that purpose, so long as they observe the rules duly established in regard thereto.

All books must be returned to the Library before Commencement, and none can be taken out during the Summer Vacation without permission of the President. The Librarian makes an annual report to the President, giving the condition of the Library, and the names of all who are any way in default as regards the same.

## OF FREE SCHOLARSHIPS.

- I. The Corporation of the City of New York; the Corporation of the City of Brooklyn; the Trustees of the Mercantile Library Association; of the Mechanics' Institute; and of the General Society of Mechanics and Tradesmen of the City of New York, shall each be entitled to have always two students; the N. Y. Free Academy, sour students; and the Corporation of Jersey City, one student, educated in the College free of all charges of tuition.
- 2. Every Religious Denomination in the City of New York shall be entitled to have always one student,

who may be designed for the ministry, educated in the College free of all charge of tuition.

3. Every School—except the Grammar School of the College—from which there shall be admitted in any one year, into the College, four students, who pay their matriculation fees, shall have the privilege of sending one scholar to be educated gratuitously in the College.

#### OF FOUNDATIONS.

- 1. Any person or persons who may found a scholar-ship to the amount of one thousand dollars, shall be entitled to have always one student educated in the College, free of all charges of tuition. This right may be transferred to others. The scholarship shall bear such name as the founder or founders may designate.
- 2. Any religious denomination, or any person or persons, who shall endow a Professorship in the Classics, in Political, Mathematical or Physical Science, or in the literature of any of the ancient or modern languages, to the amount of twenty thousand dollars, shall for ever have the right of nominating a professor for the same, subject to the approbation of the Board of Trustees, who shall hold his office by the same tenure as the other professors of the College; the nomination to be made by the authorized representatives of the religious community, or by the person or persons who shall make the endowment, or such person or persons as he or they may designate. The proceeds of the endowment will be appropriated to the salary of the professor.

## OF PRIZES.

#### I. FOR DECLAMATION.

At the public exhibition at the close of the intermediate examination, there shall be exercises in declamation by not less than two students of each class, to be previously designated by the President. The declamations of the Senior and Junior classes shall be of their own composition; those of the other classes may be selected pieces, approved by the President; and to three of those who speak on any such occasion, there shall be awarded by the Trustees, the President, and the Professors of the College present, the following prizes, viz.: to the speaker whom the majority of the judges shall consider the best, books of the value of twenty dollars, and to each of the two whom the said judges shall esteem the next best speakers, books to the value of ten dollars.

## 2. FOR PROFICIENCY IN GERMAN.

After the concluding examination, there shall be awarded to the best student of German, in the advanced class, a prize in money or its equivalent, at his option, of thirty dollars; and to the next best, a prize of twenty dollars.

In like manner to the best student in the introductory class, a prize as before, of thirty dollars, and of the next best of twenty dollars.

## 3. PRIZE OF THE ALUMNI ASSOCIATION.

A prize of *fifty dollars*, in money or its equivalent, at the option of the receiver, was first awarded at the Commencement in June, 1858.

Its conditions are, that it be given "to the most "faithful and deserving student of the graduating class."

Three names to be felected by the Faculty and submitted to the class, who from those three are to designate one.

# 4. SCHEME OF TWO ANNUAL SEMINARY PRIZES.

Founded November, 1851, in Columbia College, by the Society for promoting Religion and Learning, &c., and for which an Endowment of \$1000 is provided on the following conditions:

I. The First to be entitled, "The Society's Greek "Seminary Prize of Thirty Dollars," to be annually competed for, among such members of the graduating class as shall have given in their names to the President, at least one month previous to such competition, as candidates for the General Theological Seminary of the Protestant Episcopal Church. The examination for such prize to be held publicly in the Chapel, and separate from the General College Examination. To be on:

- 1. The Epistles of the New Testament (in Greek), "ad aperturam Libri."
- 2. On some one of the early Greek Fathers, to be designated at the time of noticing the prize; or, if none be designated, then upon some portion of Chrysostom or Athanasius, at the choice of the student.

The decision to be with the President and Greek Prosessor, in the same manner as the other special College Testimonials are decided.

- II. The Second to be entitled, the Society's English Seminary Prize of twenty dollars, to be annually competed for as before, and to consist in the production of an Essay (to be publicly read or not, as the President may determine) of the ordinary length of a pulpit discourse, on some subject connected with the course of Evidences on which the class has been engaged; such subject to be selected by the Professor of the Evidences, and given out by him at the time of notice; and the prize to be adjudged, as before, by the President and Professor of that branch, such decision to have respect to,
  - 1. The General Ability and Soundness of the Essay;
  - 2. Its Logical and Demonstrative Form; and,
- 3. The pure Saxon Style and Idiom in which it is written.

Notice of the above Prizes, with their conditions, to be publicly given out in the Chapel, each year, at the Commencement of the Closing Term of the Senior Class; and each Student giving in his name, as "Com-"petitor," to designate the prize for which he contends, and to be confined to the choice then made.

The names of the successful candidates on both prizes to be enrolled in a suitable book, to be provided and kept for that purpose, lettered appropriately, and kept on the Library table; and, also, to be announced, with other honors, on Commencement day. Payment of the above prizes to be made by the Treasurer of the Society, on certificate of the President, of the name of the successful candidate and the sulfillment of the prescribed conditions; the same being inclosed in a personal letter from the candidate himself, stating his intention of entering the Seminary at the opening of the ensuing Term; and such payment not to be taken into account in the payment of any stipend allowed to such scholar, on the part of the Society itself.

The names of the successful candidates to be also recorded honorably in the Society's books.

In case of Lapse, on the part of the College, in the bestowment of one or both prizes, then the amount of such prize, or prizes is not to pass into the general funds of the Society, but to be specifically appropriated by the Board in such manner as they may deem best for furthering the end designed by this endowment, viz.: that of enlarging the numbers and advancing the scholarship of candidates for the Ministry within the General Theological Seminary of our Church, educated in Columbia College.

## OF FELLOWSHIPS.

"There shall be Fellowships, with or without stipends, to be filled by the Board of Trustees, upon such examination and upon such rules and regulations as may hereafter be prescribed.

"There shall also be Prize Scholarships in the Sub-Graduate Course, under proper regulations."

# THE ASSOCIATION OF THE ALUMNI.

lege was formed for the purpose of perpetuating college friendships and of promoting the influence of the Institution. Graduates and those who have belonged to classes which have graduated may become members. An annual see of \$2 is required. Committees attend the semi-annual examinations and report the results of their observations to the Association at an annual meeting, at which also an Oration and Poem are delivered. Once a year the members dine together.

## OFFICERS FOR THE YEAR 1860.

President,

HENRY JAMES ANDERSON, LL. D. (Class of 1818), Fort Lee, N. J.

Vice President,

WILLIAM CHANNING RUSSEL (Class of 1823), 237 West 22d Street, N. Y.

Secretary,

ARCHIBALD SOMERVILLE VAN DUZER (Class of 1853), 293 Fifth Avenue, N. Y.

Treasurer,

HENRY AUSTIN TAILER (Class of 1852), 234 Fourth St., N. Y.

#### STANDING COMMITTEE.

ADRIAN H. MULLER (1822), 24 West 39th St., N. Y. REV. ALEXANDER S. LEONARD, D. D. (1828), 95 West 45th, N.Y. REV. WILLIAM WALTON, D. D. (1828), 39 West 22d St., N.Y. WILLIAM H. LEGGETT (1837), 273 Tenth St., N. Y. JOHN M. KNOX (1838), 40 Great Jones St., N. Y. JAMES W. FOWLER (1839), Brooklyn, N. Y. WORTHINGTON ROMAINE (1840), 12 Carroll Place, N. Y. ABRAM S. HEWITT (1842), 9 Lexington Avenue, N. Y. Rev. MORGAN DIX (1848), 42 Charlton Street, N. Y. D. PORTER LORD (1849), 128 West 39th St., N. Y. CHARLES A. SILLIMAN (1850), 17 Coenties Slip, N. Y. WILLIAM LUMMIS (1859), 111 Broadway, N. Y.

## DEPARTMENTS OF INSTRUC-TION.

#### 1. FORENSICS.

CHARLES KING, LL. D., PRESIDENT.

HE President meets the Senior Class once a week for Forensic discussion.

# 2. THE EVIDENCES OF NATURAL AND REVEALED RELIGION.

THE REV. JOHN McVICKAR, S. T. D., PROFESSOR.

The subjects in this department are taught throughout the Senior year by lectures accompanied with ample references to the best writers.

The first session is devoted to Natural Theology, involving the fundamental questions of Freedom of the Will, Man's Responsibility, and the Demonstration of the Being and Attributes of God, so far as arrived at by unaided Reason.

The à priori Demonstration. The Reductio ad Absurdum, including the Argument from Design in the Works of God and that drawn from the Spiritual Nature of Man. The whole Course tending to reconcile Faith with Knowledge and Science with Revelation.

The Second Session is devoted to the Evidences of Revelation, both Philosophic and Historical. The former answering Insidel objections, showing the absolute necessity of some Revelation, and finally eliminating all other claims than those of the Christian, sollowed by the Historic Evidences—bringing in all matters of direct proof bearing on the Record, and the moral and spiritual Argument which slows from them.

Books of Reference—For the earlier Course: Plato's Divine Dialogues, Aristotle, Cicero de Natura Deorum, Galen de usu Partium, Leibnitz, Des Cartes, Boyle Lectures, Locke, Butler's Analogy, Coleridge's Aids to Reslection, Paley's Natural Theology, Grotius de Veritate.

For the later Course—Paley's Evidences, Porteus', do., Bp. Wilson's, do., Bridgewater Treatises, &c.

## 3. THE GREEK LANGUAGE AND LITERA-TURE.

CHARLES ANTHON, LL. D., PROFESSOR.

The study of the Greek Language is pursued through all the four classes. In the Freshman Class it is made a subject of close grammatical analysis, and an Homeric foundation is laid for the studies of the succeeding years. The class are at present reading the Odyssey, and next session will have Herodotus for their text book. The Sophomore Class commence the study of

the Greek Tragedians, and pay close attention to the scanning of the plays, particularly the choral measures. Their text book throughout the current year will be Euripides. The Junior Class attend in Greek only one hour each week. They are reading Æschylus at present, and next session will take up the study of the Greek Orators. In the Senior Class the Greek course is optional, and therefore only a portion of the class attend in this department. They have a course of Lectures on Greek Literature, with weekly examinations, and are also reading Plato. Their reading next session will be Aristophanes.

Text Books: Odyssey, Herodotus, Euripides, Æschylus, Plato, Aristophanes.

## 4. THE LATIN LANGUAGE AND LITERA-TURE.

HENRY DRISLER, A. M., PROFESSOR.

The Course of Study and Text Books for the Collegiate Year, 1860-1, are as follows:

#### FRESHMAN CLASS.

- Ist Session. Virgil's Georgics, 2 books. Arnold's Latin Prose Composition, once a week. Latin Grammar. Latin Prose ody; with practical exercises in Scanning, etc.
- 2d Session. Cicero de Senectute and Nepos' Life of Atticus. Latin Prose Composition and Latin Verse; with exercises continued.

#### SOPHOMORE CLASS.

- 1st Session. Horace's Satires, with review of Latin Prosody and Latin Grammar. Exercises in Latin Prose.
- 2d Session. Tacitus' Germany and Agricola. Exercises in Latin Verse.

### JUNIOR CLASS.

- Ist Session. Tacitus' Annals, ist book. Latin Prose Composition. History of Latin Literature. (Browne's as-Text Book).
- 2d Session. Terence's Heautontimorumenos. Exercises in Latin Verse. History of Latin Literature, continued.

#### SENIOR CLASS.

1st Session. Juvenal's Satires. Latin Composition.

2d Session. Cicero de Officiis. Latin Composition. Archæology.

Books recommended for reference.—Andrew's Freund's Latin Lexicon. Madvig's, Zumpt's, and Andrews' & Stoddard's Latin Grammar. Anthon's or Smith's Classical Dictionary. Ramshorn's or Doederlein's Latin Synonymes. Donaldson's Varronianus.

# 5. THE GERMAN LANGUAGE AND LITERATURE.

THE REV. HENRY O. SCHMIDT, S. T. D., PROFESSOR.

The German Language and Literature is taught in all the classes of the College.

Text Books: Eichhorn's Practical German Grammar; Schiller's Works; Goethe's do., &c.

### 6. HIGHER MATHEMATICS.

CHARLES DAVIES, LL. D., PROFESSOR.

COURSE OF INSTRUCTION .- ANALYTICAL GEOMETRY.

Points and Lines in a Plane. Transformation of Co-ordinates. Polar Co-ordinates. Properties of the Circle. Properties of the Ellipse. Properties of the Paraboloid. Properties of the Hyperboloid. General Equation of the Second Degree. Algebraic Curves.

Space. Equations of Points and Lines. Equation of the Plane. Surfaces of the second Order, and their Sections by Planes.

Text Book: Davies' Analytical Geometry.

#### CALCULUS.

Definitions and First Principles. Differentials of Algebraic Functions. Integration of Simple Forms and Applications. Successive Differentials. Signs of Differential Co-Efficients. Formulas of Development, Maxima and Minima. Differential of Trascendental Functions. Transcendental Curves. Curvature. Radius of Curvature. Involutes and Evolutes.

Integral Calculus. Nature of Integration. Forms of Differentials, Algebraic and Transcendental. Integration of Rational Fractions. Integration by Parts. Integration of Binomial Differentials.

Text Book: Davies' Differential and Integral Cal-

## 7. PURE MATHEMATICS.

WILLIAM G. PECK, M. A., PROFESSOR.

J. HOWARD VAN AMRINGE, B. A., Tutor.

The Instruction in this Department comprises the following courses, viz.:

- I. A course of ELEMENTARY MATHEMATICS, obligatory upon the students of the Freshman and Sophomore classes.
- II. A course of Applied Mathematics, obligatory upon the students of the school of science, Senior class.
- III. A course of Descriptive Geometry and Industrial Drawing, purely optional.

The course of *Elementary Mathematics* is pursued according to the following programme:

#### FRESHMAN CLASS.

Ist TERM. To Chapter XII, Davies' University Algebra.

2d TERM. To Book VII, Davies' Legendre's Geometry.

#### SOPHOMORE CLASS.

- Ist TERM. Davies' Legendre, reviewed and completed. Mensuration and Geometrical Trigonometry.
- 2d TERM. Algebra, reviewed and completed. Analytical Trigonometry, Plane and Spherical, and Surveying.

The Course of Applied Mathematics is designed to teach the methods of applying the principles of the Differential and Integral Calculus to scientific investigations, preliminary to an advanced scientific course. The course of Descriptive Geometry, and Industrial Drawing, is pursued by such students as desire to perfect themselves in Graphic Arts, and may be taken by any one who is prepared to enter upon it. This and the preceding course are preparatory to a course of Civil Engineering.

#### INSTRUMENTS AND MODELS.

The course of Surveying is illustrated by the instruments most commonly used in Engineering and Topographical Surveying, as the Compass, the Level, the Plane Table, the Theodolite, the Transit, with their various accessories.

The Graphical course is illustrated by a set of movable Models, known as the OLIVIER MODELS. These Models, over forty in number, are fac similes of those in the Conservatoire des Arts et Métiers in Paris.

### 8. ASTRONOMY.

REV. CHARLES W. HACKLEY, S. T. D., PROFESSOR.

The studies of this Department are commenced in the second session of the Junior year with Navigation and Practical Astronomy.

The use of all the Astronomical instruments ordinarily employed at sea or on land is taught, with the methods of applying the correction for errors of adjustment to the observations, and the extra instrumental corrections for refraction, parallax, &c. Re-

duction of the places of stars from the epoch of a catalogue to any instant; Interpolation by differences.

The following instruments are used in this course: Sextant, Dolland Circle of Reslection, Kater's Circle, Large Troughton and Simms' Altitude and Azimuth instrument, with the reading Microscopes usually attached to a Mural Circle. A smaller instrument of the same kind, arranged as variation transit. A transit instrument of sour feet socal length, mounted on stone piers. A Chronometer by Parkinson and Frodsham. A clock by Dent, with mercurial pendulum. A powerful equatorial instrument, 11½ inches aperture. Numerous smaller telescopes, barometers, thermometers, globes, models and diagrams.

The Transit instrument of the College is mounted in the private Observatory of Mr. Lewis M. Rutherfurd, a Trustee of the College, to whom the Dent clock and Equatorial instrument belong.

Friday and Saturday evenings are devoted to the instruction of students in the Junior and Senior classes at the Observatory.

A course of Higher Astronomy, continuing for three years, has been arranged as follows:

#### FIRST YEAR.

#### I. PHYSICAL ASTRONOMY.

- 1. Relation of Areas and Central Forces.
- 2. Relation between Trajectories and Intensity of Central Forces.

- 3. Differential Equations of the Movement of a System of Bodies under the influence of Mutual Attraction.
  - 4. Elliptic Theory.

#### II. COMPUTATION OF ORBITS.

- 1. Computation of a Parabolic Orbit from three Observed Places, by the method of Olbers.
- 2. Computation of an Elliptic Orbit from three Observed Places, by the method of Gauss.
- 3. Corrections of first Approximations to Orbits, by means of more numerous observations.
  - 4. Recent Methods of Computing Orbits.

#### SECOND YEAR.

# PHYSICAL ASTRONOMY—GENERAL THEORY OF PERTURBATIONS.

- 1. LAGRANGE'S Method of Variation of Arbitrary Constants.
  - 2. Developments of the Perturbative Function.
- 3. Use of Solar, Lunar, and Planetary Tables for the computation of Ephemerides.
- 4. Computation of Special Perturbations by the Method of Mechanical Quadratures.
- 5. Probable Errors of Observations. Method of Least Squares.

#### THIRD YEAR.

#### PHYSICAL ASTRONOMY.

- 1. Physical Theory of Rotation of the Planets on their Axes. Physical Theory of Precesion and Nutation.
- 2. Theories of the Separate Planets. Lunar Theory. Theory of Jupiter's Satellites.
  - 3. Formation of Astronomical Tables.
- 4. Theory of the Ebb and Flow of the Ocean. Oscillations of the Atmosphere.

Instruction in Spherical Astronomy, including, to a Voluntary Class, the Computation of Eclipses and Occultations. Practical Instruction in the Observatory, and the reduction of observations carried on throughout each year.

All the Lectures on the above Course are so arranged that those of the earlier years can be attended in review, simultaneously with those of the later years.

## 9. MECHANICS AND PHYSICS.

RICHARD S. McCULLOH, A. M., Professor.

In this Department the Junior Class pursue during the first term the study of Somatalogy, or the general properties and constitution of bodies; e. g. elasticity, capillarity, crystallography, &c. During the second term they study the Mechanics of solids and stuids. The Senior Class are occupied with the study of the Ethereal form of Matter, or the laws and phenomena of Electricity, Magnetism, Light and Heat.

The instruction is imparted by lecture, text book and experimental illustrations, with appropriate apparatus.

As text books, Peck's Mechanics, Bartlett's Analytical Mechanics, Airy's Mathematical Tracts, and Bartlett's Acoustics and Optics are employed. On particular subjects various other works are recommended, as books of reference.

#### 10. CHEMISTRY.

CHARLES A. JOY, Ph. D., Professor.

Instruction in this Department is given by lectures fully illustrated by experiments and alternated with thorough reviews and examinations.

The class frequently accompany the Professor to the various manufacturing establishments of the city, where the applications of Science to the Arts can be witnessed to the best advantage.

#### PRACTICAL EXERCISES IN THE LABORATORY.

The Laboratory is furnished with the best modern appliances for acquiring a thorough knowledge of Chemistry, and the applications of this science to agriculture and the arts. It will be open to its special

students from the first of November to the first of June, every week day, except Saturday, from 9 A. M. until dusk, at a charge of \$250 a year, payable semi-annually in advance.

It is designed in this school to give a complete professional education in Chemistry to such as may desire it.

A limited number of the most distinguished students attending the Chemical Lectures are admitted free of charge as working pupils into the Laboratory. For the purpose of selecting these students, a special examination is held soon after the commencement of the second session.

Students in this department have access to the College Library, to the private library of the Professor, and to the scientific collections of the College.

Prize.—A prize of \$100 is annually paid to the most faithful and deserving student in the Laboratory.

Text Books.—General Chemistry. Miller, Graham, Regnault, Gregory, Townes, Silliman.

Analytical Chemistry. Rose, Fresenius, Will, Bolley, Rammelsberg, Liebig, Woehler.

Blow-pipe. Berzelius, Plattner, Elderhorst.

Mineralogy. Dana, Phillips.

Geology. Lyell, Dana.

#### II. BOTANY.

Dr. Torrey has presented to Columbia College his immense Herbarium, the fruit of forty years assiduous labor, together with his valuable Botanical Library.

The Herbarium is especially rich in North American plants, as it contains full sets of nearly all the collections made by the numerous exploring expeditions of the United States government, from that of Maj. Long in 1819, to the present time, and the original specimens from which the descriptions in the official reports were made. The Herbarium is also authority for the plants described in the Flora of North America, by Dr. Torrey and Dr. Gray.

The Floras of Europe, Asia, the Cape of Good Hope, Australia, and many other parts of the world, are largely represented by collections named by the highest authority. It is not the intention of Dr. Torrey to relinquish his botanical studies, for the Trustees have provided him with a residence in the College buildings and ample accommodation for his Herbarium and Library, so that he will be able to prosecute this important branch of science under more favorable circumstances than he has hitherto enjoyed. It is his purpose to deliver lectures on Botany at such hours as will not interfere with the regular studies of the Undergraduates. He has also taken measures greatly to increase the Herbarium and Library.

## 12. HISTORY AND POLITICAL SCIENCE.

FRANCIS LIEBER, LL. D., PROFESSOR.

Dr. Lieber's instruction in History begins with the downfall of the Roman empire. In the Senior Class he occupies himself with the period commencing with the American Revolution, or the First French Revo-

lution, and ending with our own times. He treats in this Class as much as possible of topics of Political Philosophy, illustrated by the great events of the period, and uses as an additional work his Civil Liberty and Self-Government.

Dr. Lieber teaches chiefly by lectures, using some work on history to surnish the facts, by regularly appointed lessons. In order to gain time for the lectures, his examinations are conducted, almost exclusively, by writing on topics given out in the class. Thus, whole classes can be examined at once. The papers are examined by him privately.

The same course is pursued in the instruction in Political Economy. He takes Say's Political Economy as the basis, but not as the guide, for his lectures.

Books of Reference: Lieber's Civil Liberty, Weber's Universal History, Say's Political Economy, Woolsey's International Law.

# 13. DEPARTMENT OF PHILOSOPHY AND ENGLISH LITERATURE.

CHARLES MURRAY NAIRNE, M. A., PROFESSOR.

The studies of this department extend over the last three years of the College course. During the sirst half of the Sophomore year the class study Rhetoric, Composition and Declamation. The latter half of the year is devoted to a critical study of an English Classic, treated in the same manner as an Ancient Classic is treated by a Professor of Ancient Languages, and to Versification as an Exercise in the vocabulary and niceties of the English language.

The first half of the Junior year is occupied with the study of Logic. The text book is an Abridgement of Whately, to which the Prosessor adds an outline of the new Analytic, and numerous exercises in the Analysis of Arguments. The students are also exercised in the declamation of their own Compositions.

During the latter half of the Junior year, one of the higher and more difficult English Classics is studied, and exercises in versification are continued.

The Senior class study Psychology and Ethics, writing Essays on subjects strictly connected with those branches; the whole course being adapted to prepare the student for pursuing the study of Philosophy in its most abstructe branches.

Text Books: Quackenbos's Course of Rhetoric, Whately's Logic, abridged; Milton, Shakespeare, Bacon, Pope, Campbell, &c.; Hickock's Empirical Psychology; Hamilton's Metaphysics, and Fleming's Vocabulary of Philosophy.

## COURSE OF STUDY.

### FRESHMAN CLASS.

First Session.

Homer's Odyssey.

Virgil's Georgics.

Arnold's Latin Profe

Composition, Latin Pro-

fody, Latin Grammar.

Grecian History.

Roman Antiquities.

Ancient Geography.

Davies' University Al-

gebra.

German.

Second Session.

Herodotus.

Cicero de Senectute.

Nepos' Life of Atticus.

Latin Prose Composi-

tions and Latin Verse.

Grecian History.

Roman Antiquities.

Ancient Geography.

Davies' Legendre's Geo-

metry.

German.

## SOPHOMORE CLASS.

First Session.

Euripides.

Horace's Satires, Exer-

cises in Latin Prose.

Roman History.

Grecian Antiquities.

Ancient Geography.

Davies' Legendre.

Second Session.

Euripides.

Tacitus' Germany and

Agricola, Exercises in

Latin Verse.

Roman History.

Grecian Antiquities.

Ancient Geography.

Mensuration and Geometrical Trigonometry.

Rhetoric.

Composition and Declamation.

Algebra, reviewed and completed. Analytical Trigonometry. Plane and Spherical Trigonometry and Surveying.

Critical Study of English Classics.

## JUNIOR CLASS.

First Session.

Æschylus.

Tacitus' Annals.

History of Latin Liter- rumenos or Andria.

ature.

Latin Profe.

German.

Analytical Geometry and Calculus.

Somatology.

History.

Logic.

Second Session.

Greek Orators.

Terence, Heautontimo-

Latin Verse.

History of Latin Litera-

ture. German.

Navigation and Practical

Astronomy.

Mechanics of Solids and

Fluids. History.

English Classics.

#### SENIOR CLASS.

First Session.

Forenfics.

Evidences of Natural and Revealed Religion.

Lectures on Greek

Literature,

Second Session.

Forenfics.

Evidences of Natural and Revealed Religion.

Lectures on Greek

Literature.

Plato.

Juvenal's Satires.

Latin Composition.

German.

Applied Mathematics.

Descriptive Geometry.

Aftronomy.

Magnetism.

Chemistry.

Political Economy.

Psychology and Ethics.

Aristophanes.

Cicero de Officiis.

Latin Composition.

Archæology.

German.

Applied Mathematics.

Industrial Drawing.

Astronomy.

Light and Heat.

Chemistry. History.

Political Economy.

## CALENDAR.

1860-Oct. 1. First Session begins Monday.

Nov. 25. Evacuation Day.

" 29. Thanksgiving Day, Thursday.

Dec. 24. Christmas Vacation begins Monday.

1861—Jan. 3. Christmas Vacation ends Thursday.

Feb. 1. First Session ends Friday.

" 4. Intermediate Examination begins Monday.

" 14. Semi-Annual Exhibition, Thursday.

" 18. Second Session begins Monday.

March 29. Good Friday.

June 7. Second Session closes Friday.

"10. Concluding Examination begins Monday.

" 21, 22. Examination of Candidates for Admission, Friday and Saturday.

" 26. Commencement.

Oct. 7. First Session begins Monday.

## GRAMMAR SCHOOL

OF

## COLUMBIA COLLEGE,

No. 327 FOURTH AVENUE, between 24th and 25th Streets.

## INSTRUCTORS.

CHARLES ANTHON, LL. D., Prof. of Languages in Columbia College, Rector.

J. AUGUSTUS SLIPPER, A. B., Classical Department.

WM. L. RAYMOND, A. B., Classical Department.

JOHN F. GESNER, A. B., Classical Department.

THOMAS H. MURPHY, English Department.

JOHN A. TAGGARD, A. M., Mathematical Department.

LEVI S. CRISPELL, A. M., Penmanship and Book Keeping.

SAURIN A. DURELL, A. M., Prof. of French.

HILDEBRANDO MARTI, Prof. of Spanish.

## DEPARTMENT OF SCIENCE.

T. H. MURPHY, Lecturer in Natural Philosophy and Chemistry.

JOHN CURTIN, Janitor.

No. of Pupils,

## INFORMATION.

HE School is held in the spacious and well-ventilated rooms of the building formerly known as IRVING HALL, situated on the Fourth Avenue, and of easy access by means of Rail Road Car or Omnibus.

The Rector attends daily from 1 to 3 P. M., and exercises a careful supervision over all the departments. He also communicates with parents weekly through the medium of School Reports.

Students in the Classical Department are prepared for the Freshman Class of Columbia College. The English students are fitted for the Counting-House.

The Lectures on Natural Philosophy and Chemistry are given with the aid of suitable apparatus.

Special attention is paid to Book-keeping and Penmanship.

The Academic Quarter consists of 11 weeks, but students are only charged from the day of entrance to the end of the current quarter. No deduction, however, is made in case of sickness.

Vacation begins at the termination of the Summer Quarter in July, and continues throughout the remainder of that month and the whole of August.

# TERMS PER QUARTER (PAYABLE ALWAYS IN ADVANCE).

First Classical 1	Form,		-	-	-	-	\$25.00
